## POSTURE

Providing you stood still during your Fit3d Body Scan you will receive a Static Posture Report. The results of your posture report will be emailed you. This can take up to 3 days. Once you receive the email, your results will also be uploaded to your Fit3d Dashboard and viewed 24/7 by logging in at: [www.fit3d.com](http://www.fit3d.com)

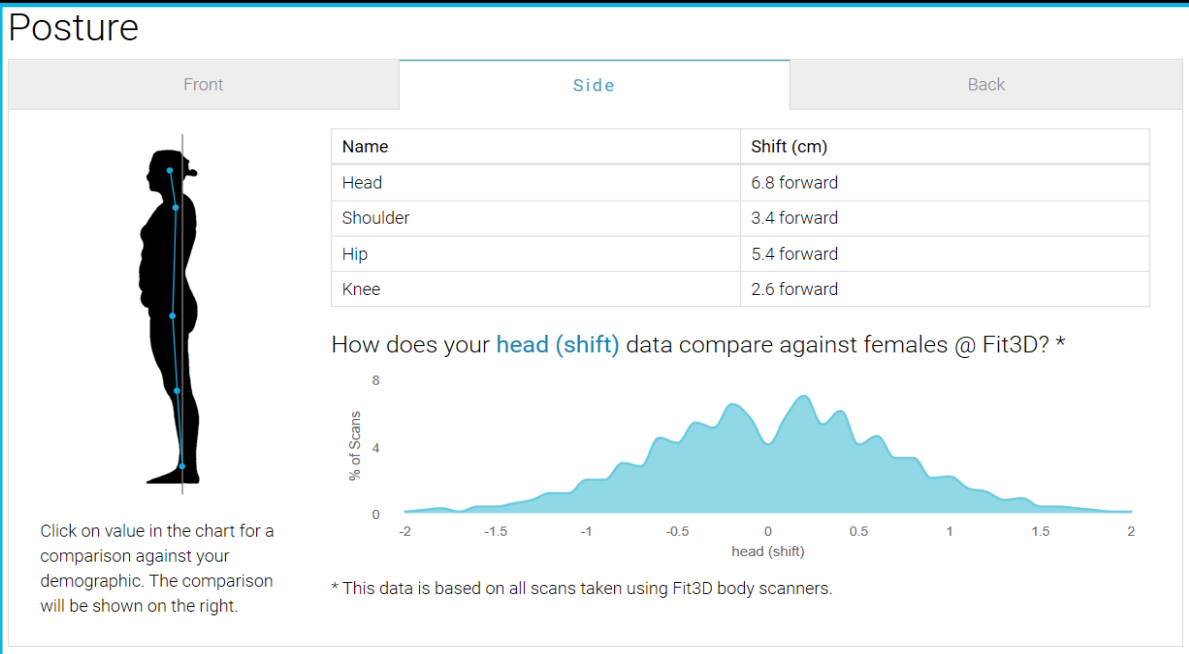

Experience has found that only the Side-On View is valuable on a one-off Fit3d Posture Report. The front and back views become more valuable once you have had several re-scans. From these re-scans you can look for patterns that occur over time and thus create prevention exercises and activities based on these patterns. We have created a 5- minute video to help you interpret your Side-on Posture report, including tips. You can check this out here: <https://www.healthandfitnessstesting.nz/resources/posture/>

If you would like further physical assessment of your posture or imbalances in your body, you can book a 1:1 assessment with our director. Peter is a Physiotherapist. You can book an appointment with him via email:

[peter@healthandfitnessstesting.nz](mailto:peter@healthandfitnessstesting.nz)

Assessment can be performed in person in Wellington or via Zoom

Below is a sample of a side on posture report.

## CORPORATE HEALTH TESTING AND REFERRALS

We are a NZ-owned small business, desperate to PREVENT PREVENTABLE HEALTH PROBLEMS before they become an issue. If you have a friend or partner who's business you think would benefit from our services, we would be grateful if you passed on our directors details. You never know, you may even help save a life! peter@healthandfittestesting.nz

## MOTIVATION AND RE-TESTING

If you are wanting to use our testing as motivation towards better health, the most effective way is to print out your Report Summary Page (or your 3d image) and pin it somewhere that you will see every day e.g. your fridge. Write down the date that you next plan to be tested and COMMITT to improving your results. If you are Wellington-based you can be re-tested in our testing lab in Wellington CBD whenever you like. If you were tested outside of Wellington please ask your coach or wellness coordinator when we will be back testing at your organisation.

## FOLLOW UP CONSULT AND FEEDBACK

We appreciate that our consultations can be quite brief. Therefore we would like to offer you a free follow up call. If you would like to discuss your results further please email our director to arrange this call. We would also appreciate any feedback you may have - we continually use feedback to better our service to you. Our directors email is peter@healthandfittestesting.nz
